

Bachelor of Music

Candidates for the Bachelor of Music degree are required to complete a minimum of 127 credits for graduation. Bachelor of Music candidates must satisfactorily complete at least 28 credits in residence at the Conservatory during the junior and/or senior years. A maximum of six years is allowed between time of entrance and completion of the Bachelor of Music degree. Students who major in either performance or composition typically receive weekly 50-minute lessons. All students are allowed 14 lessons in the fall semester and 15 lessons in the spring semester. Private instruction must be taken with a member of the Conservatory collegiate faculty.

Recitals And Juries

At the conclusion of each academic year, students will be required to perform before faculty jurors. Students who enter in January will play their jury examinations in December of that calendar year. These examinations determine whether the student has satisfactorily completed yearly requirements in the major instrument and influence continuing eligibility for scholarship assistance. The jury examination is taken into account when determining the grade for PVL 100/110/112R.

Jury examination and recital requirements vary according to the major field. These requirements including repertoire are listed below by individual major instrument following the course requirements. No required recitals or juries can be given unless the student is registered for PVL 100/110/112R at the time of the recital or jury. No required recitals or juries can be given outside of the regular collegiate sessions. Exceptions to this policy are only given in extreme cases. Students must petition the Academic Affairs Committee to request such an exception.

Ensemble Participation

Students must participate in ensembles to which they are assigned. Students whose major discipline is an orchestral instrument must participate in the orchestra every semester they are enrolled in the Conservatory. All brass majors are also required to participate in Brass Choir every semester.

Winter Term

For students who began in the Fall of 2016 your requirements are as follows:

- Master's Degree and Artist Certificate students: required for each year of enrollment.
- Professional Studies Diploma and Post-Graduate Diploma in Voice - required for each year of enrollment.
- Bachelor's Degree - total number of years enrolled, minus one. For example, if you start as a Freshman, you are required to be here for four years. You would have to participate in 3 separate Winter Terms. If you are a transfer, follow the same formula.

Core Curriculum

All students must complete the core curriculum outlined in the table on this page. Students deficient in preparation for any of these requirements may be required to take remedial courses and pass qualifying examinations prior to enrolling in these courses. The Humanities and Sciences requirement consists of six credits of Approaches to College Writing HMS 110/111, eight credits in Introduction to Western Civilization HMS 202/203; three credits in Literature, Poetry or Drama; three credits in History or Philosophy; and 11 additional credits in the HMS 210-599 series (voice majors must take at least six credits each in Italian, French and German), for a total of 32 credits. Not more than 36 credits (including 32 credits of General Education in the core curriculum) of non-music courses will count toward the total credits required for graduation. Transfer students may petition the Dean for permission to use more than 36 non-music credits as graduation requirements. For more information regarding transfer students, please see the Academic Requirements for Admission under the

General Information section of the course catalog. All requirements for the major fields are listed by major on the following pages, with the core curriculum always shaded.

Specialized Area of Study: Historical Performance Program

Corey Jamason, Director

Elisabeth Reed, Baroque Cello and Gamba

Elizabeth Blumenstock, Violin and Viola

Christine Brandes, Voice

Richard Savino, Plucked Strings

The Conservatory offers a variety of opportunities to study historically informed performance and performance practice. The Baroque Ensemble provides the primary performance opportunity to perform early music. It presents baroque orchestra and chamber music performances on period instruments from the school's period instrument collection, open to all students at the school, instrumental and vocal.

In addition, performance courses for harpsichord, fortepiano, continuo playing and viol consort are offered every semester, open to all students. Academic courses include classes in performance practice as well as numerous undergraduate and graduate courses on topics relating to early music.

Degrees in early music offered by the Conservatory include undergraduate and graduate degrees in harpsichord as well as a one-year Professional Studies Diploma in historical keyboards, a flexible degree which includes the study of fortepiano, harpsichord and continuo playing.

The Conservatory offers an Emphasis in Historical Performance, which consists of an organized set of courses for students interested in studying period instruments and performance practice in greater depth through enrollment in Baroque Ensemble, a performance practice course and specialized courses for individual instruments. The program is available for harpsichord (Corey Jamason, faculty), historical plucked strings (Richard Savino, faculty) and baroque cello (Elisabeth Reed, faculty). Emphases for additional instruments and voice will be forthcoming. Admission is by audition at the beginning of the school year. Please contact Corey Jamason for further details about the program and audition requirements.

Repertoire Requirements for Voice Majors

Evaluation and Jury Examinations

A jury examination is required of all voice students during the second semester of each year. At the end of the semester in which students are not doing a jury (usually the fall semester), voice students are required to perform a piece chosen by the voice faculty for an evaluation. Evaluation and jury repertoire is to be chosen from the required

repertoire specified in the voice department handbook. Students will receive written comments on both evaluation and jury performances.

Freshman Requirements

Repertoire requirements for the first semester: (Evaluation)

1. One early Italian song or aria, written in the seventeenth or eighteenth century
2. One song originally in English (no translations)
3. Two pieces of the student's choice (to be approved by the major teacher)

Repertoire requirements for the second semester: (Jury)

1. One early Italian song or aria, written in the seventeenth or eighteenth century
2. Two songs or arias originally in English. Translations from other languages are not acceptable. (The word "aria" in this context bears in mind particularly the works of Handel, though not exclusively.)
3. Two pieces of the student's choice (to be approved by the major teacher)

The freshman jury will consist of a performance of two pieces from the required second semester freshman repertoire: one piece chosen by the student, the second by faculty jury members.

Sophomore Requirements

Repertoire requirements for the first semester: (Evaluation)

1. Two compositions from the works of such composers as Handel, Vivaldi, Haydn or Mozart, but not by the same composer. One composition may be a song; the other must be an aria from an oratorio or an opera.
2. One song by any of the composers represented in *The Reliquary of English Song*, e.g., Arne, Dowland, Morley, Purcell, etc.
3. One song by Beethoven, Mendelssohn, Schubert or Schumann
4. One piece of the student's choice (to be approved by the major teacher)

Repertoire requirements for the second semester: (Jury)

1. Two songs by Beethoven, Bellini, Donizetti, Hensel, Mendelssohn, Mozart, Rossini, Schubert or Schumann. The two songs may not be by the same composer.
2. One song by Purcell
3. One aria from an oratorio or an opera from the works of such composers as Bach, Handel, Haydn, Mozart or Vivaldi
4. One piece of the student's choice (to be approved by the major teacher)

The sophomore jury will consist of a performance of two pieces from the required second-semester sophomore repertoire: one piece chosen by the student, the second by faculty jury members.

Junior Requirements

Repertoire requirements for the first semester: (Evaluation)

1. One song by a composer of the earlier romantic period such as Brahms, Dvořák, Liszt, Mussorgsky, C. Schumann, Wolf
2. One song by a French romantic composer such as Berlioz, Bizet, Chabrier, Chausson, Duparc, Fauré, Massenet

3. One song originally in English (no translations) by an American or British composer of the twentieth or twenty-first century
4. A song from the musical theater/jazz/American standard song repertoire, by a composer such as Berlin, Bernstein, Cahn, Gershwin, Mercer, Porter, Rodgers, Sondheim, etc.
5. Two pieces of the student's choice (to be approved by the major teacher)

Repertoire requirements for the second semester: (Jury)

1. One song by a composer of the later romantic period, such as Berg, Mahler, Strauss, Wolf, early Stravinsky, early Schönberg
2. One song by a French composer such as Debussy, Hahn, Satie, Poulenc, Ravel, Milhaud, Messiaen, Roussel
3. One composition from the works of J.S. Bach, in the original language of composition
4. One aria from an oratorio or opera from the works of nineteenth, twentieth, or twenty-first century composers
5. One song in English by an American composer such as Argento, Bacon, Barber, Carpenter, Copland, Duke, Heggie, Musto, Ives, Pasatieri, Persichetti, Rorem
6. One piece of the student's choice (to be approved by the major teacher)

The junior student in voice is required to perform a public solo recital of 25–30 minutes of music prior to the second-semester junior jury. The recital may not include any material prepared in previous years and is to be chosen from required junior repertoire enumerated in the Voice Department Handbook. It should include various styles, e.g., romantic, impressionistic, contemporary, American, and at least three languages, one of which must be English by an American composer.

The junior jury will consist of a performance of two pieces from the required second-semester junior repertoire: one piece chosen by the student, the second by faculty jury members.

Senior Requirements

The senior student in voice is required to perform a public solo recital of 50–60 minutes of music. The recital may not include any material prepared in previous years and should include pieces in Italian, German, French and English, from the baroque or classical, romantic, impressionistic or neo-classical and contemporary (twentieth and twenty-first centuries) periods. Two of the contemporary compositions must be by American composers and be drawn from settings of English words. The remaining contemporary pieces may be drawn from the works of such composers as Berg, Britten, Schönberg, etc.

The program must be approved by the major voice teacher, and a portion of the recital may be presented to the voice faculty at least four weeks prior to the recital date during a recital preview. The voice faculty will either approve the memorized recital or ask for a second preview. If the second preview is not approved, the recital must be rescheduled for a later date.

Materials for the program must be turned in to the major teacher and voice faculty for their review. This must include the recital repertoire (including opus numbers and composers' dates), translations, program notes (limited to 150 words per piece on the program) and an optional biography of the singer (limited to 150 words or less).

Repertoire requirements:

The repertoire must be equally balanced among the Italian, German, French and English languages. Other languages may be included only after the 50-minute minimum of the preceding four languages has been satisfied. The following periods and styles are to be represented:

1. Baroque and/or classical
2. Romantic

3. Impressionistic, neo-classical, post-romantic, etc. This category includes any works from or comparable to the works of the following suggested composers: Debussy, Ravel, Satie, Roussel, Milhaud, Poulenc, Messiaen, Stravinsky, etc.
4. Twentieth or twenty-first century. Two of these compositions must be by American composers such as Argento, Barber, Copland, Ives, Pasatieri, Persichetti, Rorem, etc.

Operatic and oratorio arias may be programmed in fulfillment of any of the above requirements. They are not to make up a significantly large portion of the senior recital, however.

Song cycles: Although parts of cycles may have been performed in previous years, the major portion of the repertoire must be prepared during the senior year. Songs chosen for encores must be approved by the major teacher in advance of the recital date.

At the discretion of the major teacher, an optional piece/set from the music theatre/jazz/American standard song repertoire by a composer such as Berlin, Bernstein, Cahn, Gershwin, Mercer, Porter, Rodgers, Sondheim, etc. may be included. This does not replace any required repertoire.

The recital preview will be the senior jury; an exit evaluation will be required at the end of the semester, consisting of one piece chosen by the student.

All recital and jury materials are to be prepared under the guidance and with the approval of the major voice teacher.

Artist Certificate and Master of Music in Chamber Music

Required Courses (two-year credit total: MM - 53; AC - 44)

The Conservatory offers a unique program of study for violin, viola, cello and piano leading to either a Master of Music in chamber music or a non-degree Artist Certificate in chamber music. An important aspect of these programs is the apprentice concept of students, faculty and guest artists rehearsing and performing together. Private instruction with a member of the Conservatory collegiate faculty in violin, viola, cello and piano is also required.

For both the Master of Music and the Artist Certificate in chamber music, the applicant is expected to hold a bachelor's degree in music from an accredited college, university or conservatory. Exceptional applicants for the Master of Music who hold a bachelor's degree in another area may be accepted into the Master of Music program. Exceptional applicants for the Artist Certificate who do not hold a bachelor's degree may request a waiver of the degree requirement. Existing chamber groups are encouraged to apply to the program.

Students must complete four semesters of full-time residency at the Conservatory. Students are required to participate in weekly concerts, workshops, open rehearsals and chamber music master classes. Ensemble requirements other than ENS 602 (Chamber Music Performance) shall consist of four credits. Students are not required to register for any of these other ensembles in their first semester, but may elect to do so. Students will also perform in two chamber music groups per semester, in addition to performing with guest artists and in faculty concerts. Each chamber music major will receive four hours of coaching per week.

Juries and Recitals

Graduate students are expected to produce a major work ("thesis") toward their degree. The thesis is to be of substantial length (15–20 minutes) and of a sustained and unified nature. The thesis is to be discussed with the instructor. One goal of the thesis is to demonstrate mastery of all compositional elements. Three copies of the thesis are to be given to the Department Chair before the graduation recital.

During the first year, at least 20 minutes of music must be completed and performed. ("Readings" may not be included, except of orchestral pieces.) During the second year, the candidate may present either one full recital in the final semester of work or two half-recitals within the last two semesters of work. (A full recital is defined as about 45–60 minutes of music.) Works performed must have been composed during the time the composer was a student at the Conservatory.

In both years, any pieces to be performed must be reviewed with the student's composition professor in advance and approved by the professor for presentation. At least one week before a performance, two scores for each work being presented should be given to the chair of the composition department. Criteria in evaluation of graduate composition recitals include versatility, imagination and pleasure as well as competence in working with musical materials. Also taken into account will be competence in aspects of modern musical technique such as orchestration, instrumentation, text setting, the use of electronics and the preparation/presentation of the music.

Juries and Recitals

The first-year graduate student in voice is required to prepare a full recital for the second semester jury examination, following the general requirements of the senior recital but at a more advanced level. The jury will consist of material selected by the voice faculty from the recital program. At the end of the semester in which students are not doing a jury (usually the fall semester), they may be required to perform a piece chosen by the voice faculty for an evaluation. Students will receive written comments on both evaluation and jury performances.

A public performance of the first-year graduate recital program is optional for students who performed an undergraduate recital as part of their undergraduate degree. If the student has never performed an undergraduate recital, it is recommended that he or she present a solo recital in public as a first-year graduate student, at the discretion of the major teacher. This recital does not require a preview. All first-year graduate students will perform a year-end jury.

Second-year graduate students may be required at the end of the first semester to perform a piece chosen by the voice faculty for an evaluation. A solo recital of 60 to 65 minutes of music is to be presented in public, usually in the second semester. Second-year graduate students who have presented standard repertoire in previous recitals may present recitals comprising repertoire of specialized interest. In close consultation with the teacher, a program can be designed that will satisfy the artistic and educational requirements for the master's degree while not strictly adhering to the senior repertoire guidelines. Some students who do not have much recital performance experience (such as students whose undergraduate degrees were in majors other than music) may, however, benefit by following the guidelines for senior recitals, but at a more advanced level appropriate to graduate studies. The program for the recital, whether specialized or standard, must be approved by the major voice professor, and a portion of the recital may be required to be presented to the voice faculty at least four weeks prior to the recital date during a recital preview. The voice faculty will either approve the memorized recital or ask for a second preview. If the second preview is not approved, the recital must be rescheduled for a later date.

At the time of the preview, materials for the program must be turned in to the major teacher and voice faculty for their review. This must include the recital repertoire (including opus numbers and composers' dates), translations, program notes (limited to 150 words per piece on the program) and an optional biography (limited to 150 words).

The recital preview will be the second-year graduate jury. An exit evaluation will be required at the end of the semester, consisting of one piece chosen by the student.

The second-year graduate student may also perform an optional second recital whose program reflects a special interest. This second recital may not occur until the requirements for the first recital have been fulfilled.

All recital and jury materials are to be prepared under the guidance and with the approval of the major voice professor.
